

iES

BARRICADE 2010 series:

Barricade Tour Tour Light

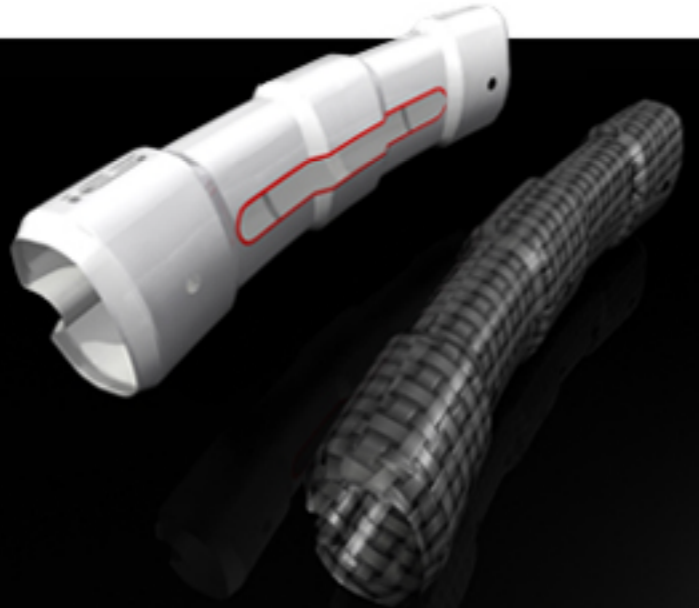

BARRICADE

adidas introduces iES:
Integrated Energy System.

iES

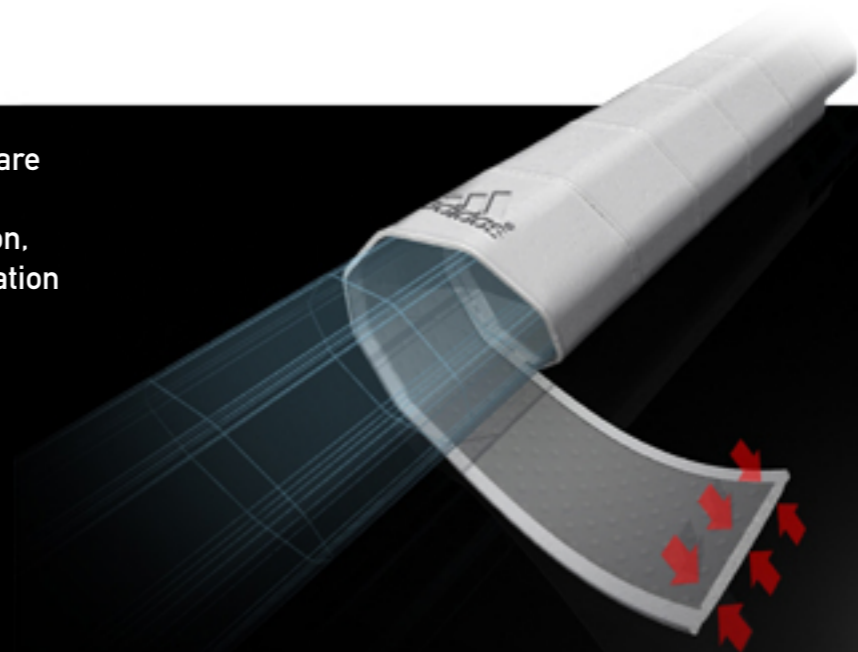

iES stands for technology that puts the energy where you need it: at the center of the frame where you hit the ball.

The more dense 3K carbon fibers at 3 and 9 o'clock of the head, add stiffness to the frame, providing extra power and control.

CUSHIONED adiGRIP

The Barricade 2 rackets are equipped with the new adiGrip with extra cushion, providing increased vibration damping and softer feel.

iES INTEGRATED ENERGY SYSTEM
